TRIUMPH TIGER DEBRIS DEFLECTOR KIT

1.Using a 6mm Allen Key remove the 4 mounting bolts for the two top bar mounts. (FIG 1)
2. You may now install the EE 23-2025 top mount. You can either install the bolts that were removed in Step 1 with a 6mm Allen Key or use the provided 8x30mm bolts with a 10mm socket. (FIG 2) (FIG 2.1)
3. When tightening the bolts down be sure that there is an event gap on the front and rear. (FIG 3)
4. If you still have the OEM handguards install you can now remove them. First remove the mirror by unthreading the mirror threaded post. (FIG 4) Once the handguard portion is removed the mirror can be reinstalled. Using a 4mm Allen Key remove the bar end bolt. (FIG 5). The OEM handguards may be set aside and will not be reused.
5. You can now install the Debris Deflector mounts. The part labeled 50-2025-01L will go on the left side and the 50-2025-01R will go on the right side. Use two of the supplied 8x25mm hex head bolts to attach each mount to the top mount installed in Step 2. Leave these bolts loose for now. (FIG 6)
6. Now locate one of the 2 supplied Debris Deflector bars. Be sure that the decal on the front is facing forward and right side up. Start by installing the provided 6x20mm flat head bolt through the Debris Delfector bar hole and thread into the end of the handlebar. Leave this loose for now. (FIG 7) Now use one of the supplied 8x25mm hex head bolts to attach the Debris Deflector bar to the mount installed in Step 5. Leave this bolt loose for now. (FIG 8)
7. Position the Debris Deflector bar to the desired angle and tighten the 6x20mm flat head bolt that threads into the end of the handlebar with a 4mm Allen Key. (FIG 9)
8. Now tighten the 8x25mm hex head bolt that attached the Debris Deflector bar to the mount with a 10mm open end wrench or socket. (FIG 10)
9. Using the same 10mm open end wrench or socket tighten the two 8x25mm hex head bolts that attach the mount to the top clamp. (FIG 11).
10. Repeat steps 6-9 for the opposite side.
